Kimono

Federica Biasi

IT Federica Biasi, milanese, classe 1989, apre il suo studio nel 2015, dopo aver trascorso un periodo di due anni nei Paesi Bassi, dove approfondisce il design nordico e sviluppa un proprio stile distintivo. Appassionata di artigianato, fotografia e viaggi coniuga nei suoi progetti tradizione e manifattura di differenti culture e design. Il suo lavoro trova sempre un'estetica essenziale ed è sempre in continuo movimento e lavorazioni. L'aspetto tattile è sempre molto presente nel suo percorso. Il suo lavoro spazia dal design di arredo, all'oggettistica, alle superfici, fino alla progettazione di esposizioni. La sua visione a 360° ha portato la designer ad essere negli anni come consulente e direttore artistico di vari brand nel settore. Nel 2018, su nomina di Andrea Branzi, riceve il premio Rising Talent durante Maison & Objet. Nel 2020 presenta la collezione Lume per Nespresso e nel 2021 vince EDIDA – ELLE DECOR INTERNATIONAL DESIGN AWARD come Giovane Talento dell'Anno. Recentemente, ha ricevuto anche l'IF Design Award 2022 e il Kyoto Global Design Award 2023, ed è stata nominata da Architectural Digest nei 100 nomi più influenti del settore nell'anno 2024.

EN Federica Biasi, born in Milan in 1989, opened her studio in 2015 after spending two years in the Netherlands, where she deepened her understanding of Nordic design and developed her own distinctive style. Passionate about craftsmanship, photography, and travel, she combines tradition and manufacturing techniques from different cultures with industrial design, always seeking a refined aesthetic and a balance between forms and processes. The tactile aspect and research are always central to her creative journey. Her work ranges from furniture design to objects, surfaces, and exhibition design. Thanks to her 360-degree vision, over the years, she has also taken on roles as a consultant and artistic director for various brands in the industry. In 2018, she was awarded the Rising Talent prize at Maison & Objet, nominated by Andrea Branzi. In 2020, she presented the Lume collection for Nespresso, and in 2021, she won the EDIDA – ELLE DECOR INTERNATIONAL DESIGN AWARD as Young Talent of the Year. More recently, she received the IF Design Award in 2022 and the Kyoto Global Design Award in 2023, and in 2024, Architectural Digest included her among the 100 most influential names in the industry.

IT Kimono – Federica Biasi (2024)

La collezione Kimono disegnata da Federica Biasi si ispira alla composizione degli omonimi abiti tradizionali giapponesi, creati attraverso un complesso lavoro di piegature e colori, che contribuiscono a creare un disegno geometrico fatto di tessuti e fantasie differenti. La collezione rievoca un prodotto storico dell'azienda dalla caratteristica texture materica e lucida ottenuta dalla sovrapposizione tradizionale di smaltature. Kimono propone una resa artigianale con superfici lucide e tattili attraverso materiali e lavorazioni contemporanee.

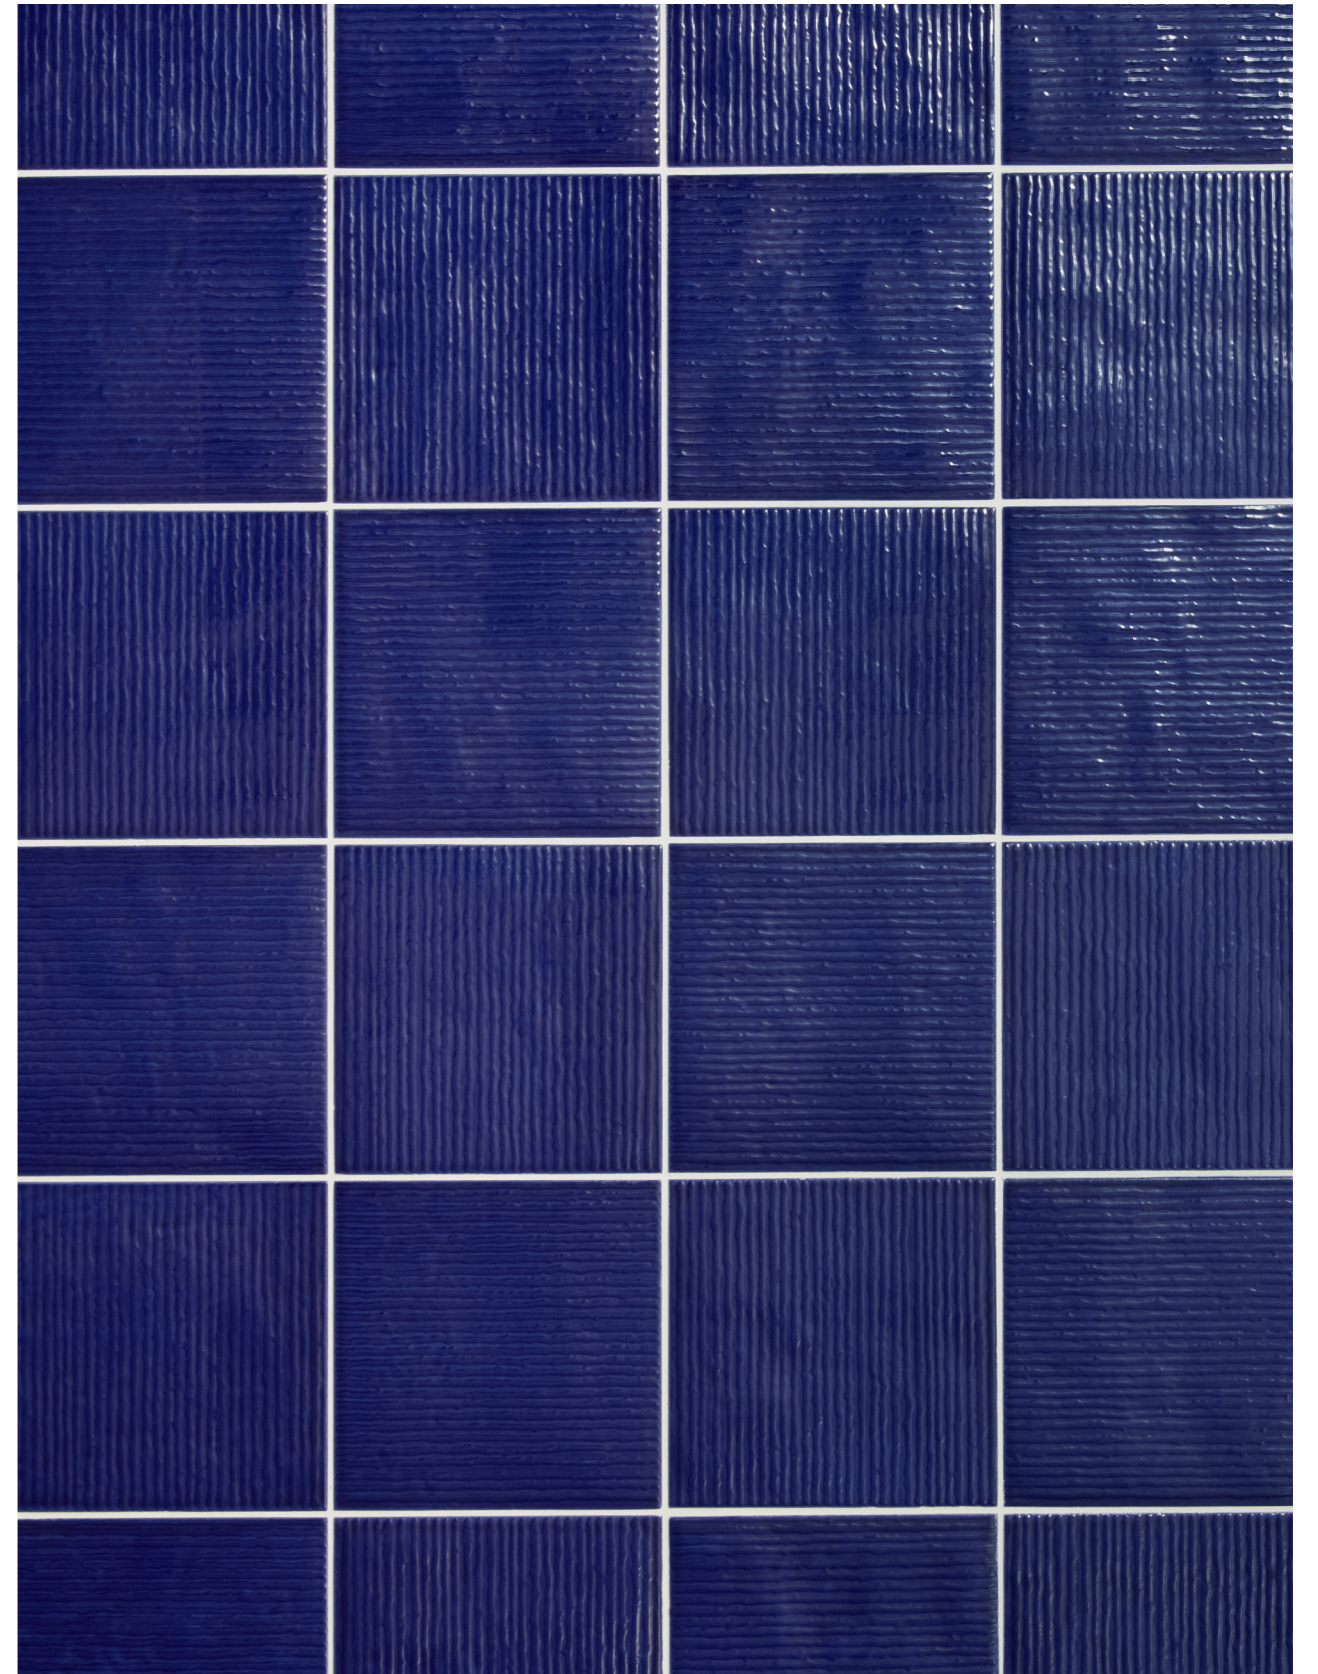

EN Kimono – Federica Biasi (2024)

The Kimono collection designed by Federica Biasi is inspired by the composition of the traditional Japanese kimono: complex combinations of folds and colors come together to create a geometric design made up of different fabrics and patterns. The collection alludes to a historical Decoratori Bassanesi product with its distinctive textural shine, the result of a traditional layering of glazes. Kimono offers a handcrafted look, with shimmering, textured surfaces obtained through the use of contemporary materials and processes.

IT La gamma cromatica è stata oggetto di uno studio approfondito focalizzato sulla combinazione tra tinte diverse. Un'ampia palette di otto tonalità, in cui gli smalti spaziano dal blu al verde più intensi, ai colori delle terre, fino a nuance più neutre, presentando svariate possibilità espressive, in cui anche la scelta dello stucco diventa elemento caratterizzante nel design di uno spazio. Kimono, inoltre, si abbina perfettamente alle collezioni di pavimenti di Decoratori Bassanesi, offrendo un'estetica unica che aggiunge profondità e personalità agli ambienti.

EN The colour palette has been carefully created, focusing on individual shades and their combination. The result is a palette of eight hues, spanning from blue to intense green and from earthy shades to more neutral ones, for a whole world of possibilities, where even the grout becomes a distinctive element of a space. Kimono, also perfectly complements the Decoratori Bassanesi collection of flooring, offering a unique aesthetic that adds depth and personality to rooms.

IT Kimono porta negli spazi un senso di armonia con colori intensi, che conferiscono profondità e carattere a ogni ambiente.

EN *Kimono brings a sense of harmony into the space, with bold colors that lend depth and character to any room.*

Note **Note**

La collezione ha 20 facce diverse per far risaltare la natura artigianale del prodotto. Proprio per la sua natura artigianale consigliamo, prima di effettuare la posa definitiva del prodotto, di provare a posare a secco le piastrelle, così da valutare il corretto posizionamento dei vari elementi e di armonizzare la posa per mezzo di una attenta suddivisione delle fughe. Per rivestire mobili, piani, lavelli o altri elementi simili con i prodotti della collezione Kimono, è buona norma attendere la ricezione del materiale al fine di valutarne i calibri reali e procedere di conseguenza alla costruzione dei supporti da posare.

To highlight the artisanal nature of the product, the Kimono collection has been made in 20 different faces. Because of this artisanal characteristic, we recommend to carry out a dry-tile laying test before final installation in order to evaluate the correct positioning of the different elements and to harmonize the installation, paying particular attention to the distribution of the joints. For furniture covering, worktops, sinks or other similar items with the products of the kimono collection, it is recommended to wait for the receipt of the material in order to evaluate the real calibre and proceed accordingly to manufacture the supports to be laid.
